Project Title: RESOURCE SUPPORT DEVELOPMENT UNDER THE PAGGURUFUNAN
PARA TA PROGRESO
Location: SITIO BURAYOC, BRGY. BASAO GATTARAN CAGAYAN
Proponent: DEPARTMENT OF CHEMICAL ENGINEERING

Rationale:

The Cagayan State University being one of the state universities of the Philippines continues to fulfill its mandate by achieving excellence in instruction, conduct of various researches, and involvement in community empowerment through various research-based extension programs. The College of Engineering and Architecture is one of the largest colleges in its Carig Campus in terms of faculty and student population. Throughout the years, the College has launched various extension activities which aims to help Cagayano communities to become resilient and help them attain sustainability.

The CSU Carig Campus through the leadership of Engr. Arthur G. Ibanez has launched the extension program entitled "Paggurufunan para ta Progreso". One of the objectives of this extension program is to provide assistance to the Agta Community in Sitio Burayoc, Barangay Basao, Gattaran Cagayan. This extension program is subdivided into three project components namely;

1. Techno-Demo on Food and Non-food products for livelihood;
2. Development of IEC materials;
3. Resource Support Development.

The College of Engineering and Architecture is assigned to the Resource Support Development project wherein under this project, the college is expected to perform the following;

1. Installation Solar Power System;
2. Establishment of Small Water Impounding and Irrigation System;
3. Establishment of potable water supply.

The aforementioned extension program has been awarded with 650,000 budget by the CSU central administration.

Currently, the community beneficiary does not have a source of potable water that they could use in their day-to-day life. They are dependent on a mere artisan well located adjacent to a stream. Water samples taken from the same well failed on potability tests.

This is the reason why the college of engineering and architecture through its department of chemical engineering decided to install a water filtration system that will ensure that the community will have sufficient supply of clean and potable water.

Upon installation, members of the beneficiary community including some barangay officials will be trained to maintain the filtration system. This is to ensure that the residents are equipped with basic knowledge in troubleshooting.

Objectives:

Generally, the training aims to provide orientation and to assist the residents regarding Operation and Maintenance of Potable Water Supply (Pump Well).

Specifically, the training should be able to:

1. Disseminate information among residents and officials of the community on the importance of Potable Water
2. What is the different water borne diseases and how these diseases are contracted.
3. What are the different ways to filter water for drinking.
4. Discuss Do's and Don'ts in cleaning pump well.

Methodology:

The aim of this project is to conduct training. Participants will be the residents and the officials of barangay Burayoc. Prior to the training proper, interview for the profile of the participants and facilitation of attendance will be conducted.

Training will include two different parts; Part 1: Importance of Potable Water and Part 2: Maintenance of the Filtration System.

Standard training sessions will be conducted using variety of training methods and techniques such as slides presentations, group discussion, cooperative learning, and group dynamics and team building. Lecture-discussion type of training will be conducted for each topic. There will be open forum after every lecture. Participants will also conduct an evaluation on the training after the training.

Training Activities:

Topic	Contents	Time Allotment	Training Requirements from participants
Part 1: Importance of Potable Water	a. What is potable water? b. How to measure/test the potability of water? c. What are the advantages of using clean water in our day-to-day life	3 hours	• Attendance • Evaluation
Part 2: Basic Filtration Methods for Drinking water	a. What is the different water borne diseases? b. How to filter water at home? c. How to maintain pump well	3 hours	• Attendance • Evaluation

Training Resources:

Technical services, training materials, PowerPoint presentations, projectors

Expected Output

This training on Potable Water Supply Maintenance was conducted to capacitate the beneficiaries including some barangay officials in basic troubleshooting. In this way, whenever there are problems that needs immediate repair, the trained personnel can already attend to it without waiting for the scheduled maintenance by the faculty extensionists.

In addition, the participants will be informed of the importance of filtering their water before drinking and other implications of drinking unsafe or unclean water from streams and other bodies of water.

Budgetary Requirement:

Item	Q1	Q2	Q3	Q4	Source of Fund		
					University	Campus	Other agency
Food	3000						
Printing of materials	2000						
Grand Total	5000

Narrative Report

Seminar on Potable Water Supply Maintenance (PART 2)
Sitio Burayoc, Brgy. Basao Gattaran Cagayan
December 5, 2022

The Cagayan State University being one of the state universities of the Philippines continues to fulfill its mandate by achieving excellence in instruction, conduct of various researches, and involvement in community empowerment through various research-based extension programs. The College of Engineering and Architecture is one of the largest colleges in its Carig Campus in terms of faculty and student population. Throughout the years, the College has launched various extension activities which aims to help Cagayano communities to become resilient and help them attain sustainability.

The CSU Carig Campus through the leadership of Engr. Arthur G. Ibanez has launched the extension program entitled "Paggurufunan para ta Progreso". One of the objectives of this extension program is to provide assistance to the Agta Community in Sitio Burayoc, Barangay Basao, Gattaran Cagayan. This extension program is subdivided into three project components namely;

1. Techno-Demo on Food and Non-food products for livelihood;
2. Development of IEC materials;
3. Resource Support Development.

The College of Engineering and Architecture is assigned to the Resource Support Development project wherein under this project, the college is expected to perform the following;

1. Installation Solar Power System;
2. Establishment of Small Water Impounding and Irrigation System;
3. Establishment of potable water supply.

The aforementioned extension program has been awarded with 650,000 budget by the CSU central administration.

Currently, the community beneficiary does not have a source of potable water that they could use in their day-to-day life. They are dependent on a mere artesian well located adjacent to a stream. Water samples taken from the same well failed on potability tests.

This is the reason why the college of engineering and architecture through its department of chemical engineering decided to install a water filtration system that will ensure that the community will have sufficient supply of clean and potable water.

Upon installation, members of the beneficiary community including some barangay officials will be trained to maintain the filtration system. This is to ensure that the residents are equipped with basic knowledge in troubleshooting.

The training proper was conducted right after the site evaluation. The topic was discussed by Engr. William Apattad, a faculty member of the Chemical Engineering Department. It was discussed or delivered in Ilokano since the beneficiaries are more familiar with the Ilokano dialect.

After the discussion, the attendees are then required to evaluate the activity.

CSU VISION

CSU is a university with global stature in the arts, culture, agriculture and fisheries, the sciences as well as technological and professional fields.

CSU MISSION

Cagayan State University shall produce globally competent graduates through excellent instruction, innovative and creative research, responsive public service and productive industry and community engagement.

A blue graphic element resembling a scroll, with a vertical strip on the left side and a horizontal strip extending to the right. The horizontal strip has rounded ends and contains the text.

COPY OF LECTURE/MODULE

1

CLEAN WATER (Nadalus a danum)

- Raw (untreated) water from reservoirs, is used for irrigation and other purposes. Recycled water (highly-treated wastewater) can also be used in everyday life.
- **Water from natural sources still needs to be treated** for microorganisms, bacteria, toxic chemicals, viruses and fecal matter.

2

DRINKING WATER

Potable water (drinking water) is water that is safe to use in drink or food preparation.

It can come from surface or underground sources.

3

It is important to drink enough water to maintain a healthy mind and body!

4

WHY WE NEED TO DRINK WATER

Drinking enough water can prevent:

1. Dehydration
 - Unclear thinking
 - Headaches
2. Overheating of the body
3. Constipation
4. Kidney stones

5

CHARACTERISTICS OF POTABLE WATER

Water should be FREE FROM:

harmful bacteria
and germs

suspended
impurities

unnatural
odors

6

POTABLE WATER IS:

- ✓ Clear
- ✓ Colorless
- ✓ Odorless
- ✓ Free from impurities and harmful microorganisms

7

Drinking contaminated water can cause sickness and death!

8

9

10

COMMON SYMPTOMS OF WATER-BORNE DISEASES

- Dehydration
- Diarrhea
- Vomiting and nausea
- Abdominal pains
- Fatigue and muscle pains
- Fever and chills

11

11

**CLEAR WATER IS NOT
NECESSARILY SAFE TO
DRINK!**

12

12

HOW TO MAKE WATER SAFE TO DRINK

1
Water must be **filtered first** to trap and remove large impurities. Any **cloth or coffee filter** can be used as a filter.

2
If water is **cloudy**, it can be made to **stand for half a day**, after which clear water can be scooped and the filtered.

3
Boiling water kills all potential germs you may get from contaminated water. **Heat water and allow it to boil** for two minutes then let it cool.

**Boiled water that has been cooled can be used immediately.*

4
Water can be disinfected by adding 2 drops of 5% chlorine solution (unscented bleach) for every one liter of refrigerated water. Allow it to stand for an hour.

5
If faint chlorine smell is detected after an hour, then it is safe to drink. Repeat the procedure if you cannot detect the smell.

**If it does not have the faint smell on the 2nd try, water must be discarded since it may contain germs.*

Summary of Evaluation

The training on **Potable Water Supply Maintenance Part II** was conducted on December 2, 2022 in Sitio Burayoc, Brgy. Basao, Gattaran Cagayan.

The main objective of this seminar is to equip the participants with knowledge regarding importance of potable water supply, simple filtration methods and basic knowledge in the maintenance of pump well. This activity was participated by 40 residents of the Agta Community including barangay officials of barangay Basao Gattaran Cagayan.

The aforementioned training was rated based on the following; the item course content and training schedule, there were four statements given which were rated by the participants as **OUTSTANDING** and the weighted mean for these items were also **OUTSTANDING**. Thus, this indicates that the course content was very important and the training was very timely and the time allotted was just enough for the training.

Under the item timeliness, the participants rated **OUTSTANDING**. Their concerns and issues related to the lecture was also addressed by the speakers.

The speaker's performance was also rated **OUTSTANDING** based on the evaluation instrument.

To summarize the Evaluation, the over-all weighted mean is 5 or **OUTSTANDING**. Thus, this implies the training conducted was very beneficial and timely to the participants.

TRAINING EVALUATION FORM
(Community-Based)

This form is designed to draw out your reaction/perception after attending the training.
Please answer TRUTHFULLY all items by using the scale below:

5 - Outstanding 4 - Very Satisfactory 3 - Satisfactory 2 - Good 1 - Poor

Title of Training/Seminar: SEMINAR ON SOLIDWASTE MANAGEMENT AND VERMI COMPOSTING, SOLAR POWER SYSTEM MAINTENANCE AND TROUBLESHOOTING, CSU VMGO AWARENESS, POTABLE WATER SUPPLY MAINTENANCE PART 2

Date: DECEMBER 15 2022

A. Course Content

1. The training is very relevant to present needs of the community and the country as a whole. 1 2 3 4 5
2. The topics/workshop gave me new insights/ideas about how I should do my work. 1 2 3 4 5
3. The topics/workshop gave me new skills that will improve my efficiency/productivity. 1 2 3 4 5
4. The topics/workshop will enhance my dealings with the members of my community. 1 2 3 4 5

B. Training Schedule

1. The sessions started and ended according to the set schedule. 1 2 3 4 5
2. The schedule for the training was conducive to learning. 1 2 3 4 5
3. The time allotted for the topic was sufficient to ensure maximum learning. 1 2 3 4 5
4. The time allotted for breaks was sufficient. 1 2 3 4 5

C. Timeliness

1. The topics discussed gave solutions to my present concerns related to my work/enterprise/project. 1 2 3 4 5

D. Resource Speakers

E. Resource Persons/ Speakers	Speaker: 1					Speaker: 2					Speaker: 3					Speaker: 4					Speaker: 5				
	1	2	3	4	5	1	2	3	4	5	1	2	3	4	5	1	2	3	4	5	1	2	3	4	5
1. The resource persons showed mastery of the subject matter.					/					/					/					/					/
2. The resource persons spoke clearly.					/					/					/					/					/
3. The resource persons presented the topics in an organized manner.					/					/					/					/					/
4. The resource persons exhibited the enthusiasm in delivering their lecture.					/					/					/					/					/
5. The resource persons used various methods to make the presentations interesting and lively.					/					/					/					/					/
6. The resource persons encouraged group participation.					/					/					/					/					/

TRAINING EVALUATION FORM
(Community-Based)

This form is designed to draw out your reaction/perception after attending the training.
Please answer TRUTHFULLY all items by using the scale below:

5 - Outstanding

4 - Very Satisfactory

3 - Satisfactory

2 - Good

1 - Poor

**Title of
Training/Seminar:**

SEMINAR ON SOLIDWASTE MANAGEMENT AND VERMI COMPOSTING, SOLAR POWER
SYSTEM MAINTENANCE AND TROUBLESHOOTING, CSU VMGO AWARENESS, POTABLE
WATER SUPPLY MAINTENANCE PART 2

Date

DECEMBER 5, 2022

A. Course Content

1. The training is very relevant to present needs of the community and the country as a whole. 1 2 3 4 5
2. The topics/workshop gave me new insights/ideas about how I should do my work. 1 2 3 4 5
3. The topics/workshop gave me new skills that will improve my efficiency/productivity. 1 2 3 4 5
4. The topics/workshop will enhance my dealings with the members of my community. 1 2 3 4 5

B. Training Schedule

1. The sessions started and ended according to the set schedule. 1 2 3 4 5
2. The schedule for the training was conducive to learning. 1 2 3 4 5
3. The time allotted for the topic was sufficient to ensure maximum learning. 1 2 3 4 5
4. The time allotted for breaks was sufficient. 1 2 3 4 5

C. Timeliness

1. The topics discussed gave solutions to my present concerns related to my work/enterprise/project. 1 2 3 4 5

D. Resource Speakers

E. Resource Persons/ Speakers	Speaker: 1					Speaker: 2					Speaker: 3					Speaker: 4					Speaker: 5				
	1	2	3	4	5	1	2	3	4	5	1	2	3	4	5	1	2	3	4	5	1	2	3	4	5
1. The resource persons showed mastery of the subject matter.					/					/					/					/					/
2. The resource persons spoke clearly.					/					/					/					/					/
3. The resource persons presented the topics in an organized manner.					/					/					/					/					/
4. The resource persons exhibited the enthusiasm in delivering their lecture.				/						/					/					/					/
5. The resource persons used various methods to make the presentations interesting and lively.					/					/					/					/					/
6. The resource persons encouraged group participation.					/					/					/					/					/

TRAINING EVALUATION FORM
(Community-Based)

This form is designed to draw out your reaction/perception after attending the training.
Please answer TRUTHFULLY all items by using the scale below:

5 - Outstanding 4 - Very Satisfactory 3 - Satisfactory 2 - Good 1 - Poor

Title of Training/Seminar: SEMINAR ON SOLIDWASTE MANAGEMENT AND VERMI COMPOSTING, SOLAR POWER SYSTEM MAINTENANCE AND TROUBLESHOOTING, CSU VMGO AWARENESS, POTABLE WATER SUPPLY MAINTENANCE PART 2

Date: DECEMBER 5, 2022

A. Course Content

1. The training is very relevant to present needs of the community and the country as a whole. 1 2 3 4 5
2. The topics/workshop gave me new insights/ideas about how I should do my work. 1 2 3 4 5
3. The topics/workshop gave me new skills that will improve my efficiency/productivity. 1 2 3 4 5
4. The topics/workshop will enhance my dealings with the members of my community. 1 2 3 4 5

B. Training Schedule

1. The sessions started and ended according to the set schedule. 1 2 3 4 5
2. The schedule for the training was conducive to learning. 1 2 3 4 5
3. The time allotted for the topic was sufficient to ensure maximum learning. 1 2 3 4 5
4. The time allotted for breaks was sufficient. 1 2 3 4 5

C. Timeliness

1. The topics discussed gave solutions to my present concerns related to my work/enterprise/project. 1 2 3 4 5

D. Resource Speakers

E. Resource Persons/ Speakers	Speaker: 1					Speaker: 2					Speaker: 3					Speaker: 4					Speaker: 5				
	1	2	3	4	5	1	2	3	4	5	1	2	3	4	5	1	2	3	4	5	1	2	3	4	5
1. The resource persons showed mastery of the subject matter.				/						/					/					/					/
2. The resource persons spoke clearly.				/						/					/					/					/
3. The resource persons presented the topics in an organized manner.				/						/					/					/					/
4. The resource persons exhibited the enthusiasm in delivering their lecture.				/					/						/					/					/
5. The resource persons used various methods to make the presentations interesting and lively.				/					/						/					/					/
6. The resource persons encouraged group participation.				/					/						/					/					/

TRAINING EVALUATION FORM
(Community-Based)

This form is designed to draw out your reaction/perception after attending the training.
Please answer TRUTHFULLY all items by using the scale below:

5 - Outstanding 4 - Very Satisfactory 3 - Satisfactory 2 - Good 1 - Poor

**Title of
Training/Seminar:**

SEMINAR ON SOLIDWASTE MANAGEMENT AND VERMI COMPOSTING, SOLAR POWER
SYSTEM MAINTENANCE AND TROUBLESHOOTING, CSU VMGO AWARENESS, POTABLE
WATER SUPPLY MAINTENANCE PART 2

Date

DECEMBER 5, 2022

A. Course Content

1. The training is very relevant to present needs of the community and the country as a whole. 1 2 3 4 5
2. The topics/workshop gave me new insights/ideas about how I should do my work. 1 2 3 4 5
3. The topics/workshop gave me new skills that will improve my efficiency/productivity. 1 2 3 4 5
4. The topics/workshop will enhance my dealings with the members of my community. 1 2 3 4 5

B. Training Schedule

1. The sessions started and ended according to the set schedule. 1 2 3 4 5
2. The schedule for the training was conducive to learning. 1 2 3 4 5
3. The time allotted for the topic was sufficient to ensure maximum learning. 1 2 3 4 5
4. The time allotted for breaks was sufficient. 1 2 3 4 5

C. Timeliness

1. The topics discussed gave solutions to my present concerns related to my work/enterprise/project. 1 2 3 4 5

D. Resource Speakers

E. Resource Persons/ Speakers	Speaker: 1					Speaker: 2					Speaker: 3					Speaker: 4					Speaker: 5				
	1	2	3	4	5	1	2	3	4	5	1	2	3	4	5	1	2	3	4	5	1	2	3	4	5
1. The resource persons showed mastery of the subject matter.				✓					✓					✓					✓						✓
2. The resource persons spoke clearly.				✓					✓					✓					✓						✓
3. The resource persons presented the topics in an organized manner.				✓					✓					✓					✓						✓
4. The resource persons exhibited the enthusiasm in delivering their lecture.				✓					✓					✓					✓						✓
5. The resource persons used various methods to make the presentations interesting and lively.				✓					✓					✓					✓						✓
6. The resource persons encouraged group participation.				✓					✓					✓					✓						✓
