DR. JOEL BINASOY
ENGR. MA. NIÑA SALES
Faculty

MR. FERDINAND SERRANO
Driver

Office/ College

: College of Engineering and Architecture

Purpose:

: To conduct extension activity for under the Pagguruffunan para sa Progreso titled: "Impact of Water Pollution on Water Supply" at Basao, Gattaran, Cagayan; and

To obtain Bamboo Woven Products from the Beneficiary Community.

Duration

: June 7, 2024 (Inclusive of Travel Time)

Destination

: Basao, Gattaran, Cagayan

Vehicle

: County Bus (030104)

Conditionalities

: The travel is on **OFFICIAL BUSINESS**.

All expenses incurred during this travel are chargeable against the **CSU FUND**, subject to the availability of funds and to the usual accounting and auditing rules and regulations.

A report should be submitted upon the termination of the mission for which this Authority to Travel was issued.

Approved

: **ENGR. ROGER P. RUMPOY, MS**
Campus Executive Officer

Date Signed:

6/7/24

TRAINING DESIGN

Republic of the Philippines
CAGAYAN STATE UNIVERSITY
CARIG CAMPUS
Carig Sur, Tuguegarao City, Cagayan, Philippines

I. BASIC INFORMATION

Program: Resource Support Development under Paggurufunan para ta Progreso

Title of Training/Seminar: Impacts of Water Pollution on Water Supply

Theme:

Training Provider/Proponent

Chemical Engineering Department
College of Engineering and Architecture

Target Participants:

The participants of this seminar are the Community Members of the Agta Community, Barangay officials and residents of the barangay.

Number of Participants

No. of Participants	Barangay
30	Members of Agta Community
5	Barangay Officials

Venue: Agta Community, Basao Gattaran

Committees:

Committee	Person-In-Charge
Programme Invitation Certificates Tokens	Engr. Ralph Angelo Estiller Engr. Oliver Doctolero Engr. Ma. Nina Dioceth Sales Engr. Czyione Dayl Mendoza
Registration and Evaluation Committee	Engr. Joseph Cabalbag Prof. Narcisa Laggui Dr. Leonora Udaundo Dr. Ruth Maguddayao
Emcee	Engr. Ralph Angelo Estiller
Documentation	Engr. Frances Lorane Calapini CE and ChE Students,
Overall In-charge	Engr. Ralph Angelo Estiller Engr. Cristopher Capili Dr. Joel Binasoy
Resource Speaker	Dr. Mary Jane Calagui

CARIG CAMPUS
Carig Sur, Tuguegarao City, Cagayan, Philippines

II. RATIONALE

Water pollution has significant and far-reaching impacts on water supply. It can contaminate both surface water bodies like rivers, lakes, and reservoirs and underground aquifers, which are primary sources of drinking water. Pollutants such as heavy metals, industrial chemicals, and microbial pathogens make these sources unsafe for consumption, triggering water supply crises. The cost of treating polluted water for consumption rises significantly, straining water treatment plants and increasing expenses, often leading to higher water bills for consumers. Moreover, water scarcity may result when pollution makes sources unusable, leading to water rationing and usage restrictions, particularly in drought-prone regions.

Health risks rise due to waterborne diseases, which strain public health systems, and environmental ecosystems suffer from fish kills, loss of biodiversity, and food chain disruptions. Moreover, persistent pollutants accumulate over time, leading to chronic pollution problems. Regulatory challenges and social disparities exacerbate the issue, while aging infrastructure faces increased stress, demanding costly upgrades and repairs. To ensure a safe and reliable water supply, preventing water pollution through sustainable practices and effective regulations is imperative.

Sharing information about water pollution's impact on water supply is crucial for Agta communities. It preserves their traditional knowledge, protects health, promotes environmental stewardship, empowers advocacy for clean water, and ensures cultural preservation. Informed communities are resilient and better equipped to secure their water supply and rights against environmental challenges and external pressures.

Republic of the Philippines
CAGAYAN STATE UNIVERSITY
CARIG CAMPUS
Carig Sur, Tuguegarao City, Cagayan, Philippines

The small community of Agtas in Basao Gattaran is composed of several households. The community is located on a hillside near the Burayoc falls which is a developing tourist spot. Life in the community is very simple with no electricity and limited source of potable water.

The focus of this seminar is to capacitate the members of the Agta community by providing technical support and a seminar on the Impacts of Water Pollution on Water Supply.

Objectives:

This seminar aims to apprise the members of the Agta community, barangay officials, and Residents of barangay basao on the Impacts of Water pollution on water supply.

Specifically, it aims to:

- a. Discuss the Sources of Water
- b. What is Water Pollution?
- c. Impacts of Water Pollution on Water Supply

III. MECHANICS/METHODOLOGY

To facilitate conceptual understanding and application of learning and to gauge how much the participants have learned/understood with the use of combined methodologies:

1. Lecture Presentations and Interactive Discussions

IV. EXPECTED OUTPUT

The participants are expected to be equipped with basic knowledge about water sources, water pollution, and the impacts of water pollution on water pollution.

V. TRAINING TOPICS AND RESOURCE PERSONS

Topic	Resource Person	Contents	Time allotment	Training Requirements from participants
IMPACTS OF WATER POLLUTION ON WATER SUPPLY	Dr. MARY JANE CALAGUI, ASEAN ENGR. <i>College QAA Coordinator, CHE Faculty</i>	- Sources of potable water - Health benefits of drinking safe drinking water - Types of pollution - What are the sources of water pollution	11:00-12:00 (AM) 1:00-4:00 (PM)	Attendance Morning and Afternoon Evaluation

Republic of the Philippines

CARIG CAMPUS
Carig Sur, Tuguegarao City, Cagayan, Philippines

PROGRAMME

PART 1: Opening Program	
Invocation	Prof. Narcisa Laggui
National Anthem	
Welcome Remarks	Hon. GILBERT GUILLERMO <i>Barangay Chairman, Basao Gattaran</i>
Rationale of the of the Activity	Engr. RALPH ANGELO ESTILLER <i>Project Proponent</i>
Message	Dr. JOEL BINASOY <i>Campus Extension Coordinator</i>
Photo-Opportunity	All participants and Guests
PART 2: Training Proper	
Sources of Potable Water and Health Benefits of drinking safe/potable water	Dr. MARY JANE CALAGUI, ASEAN Engr <i>College QAA Coordinator and ChE Faculty</i>
Open Forum & Lunch Break	
Types of pollution and What are the sources of water pollution?	Dr. MARY JANE CALAGUI, ASEAN Engr <i>College QAA Coordinator and ChE Faculty</i>
Closing Remarks and Awarding of Certificates	Engr. CHRISTOPHER CAPILI <i>College Extension Coordinator</i>
CLOSING & PHOTO OPPORTUNITY	

VI. BUDGETARY REQUIREMENT

ITEM	Details/Description	Quantity	Unit Cost	Amount
1. Food	Lunch (D1)	50	150	7500
2. Honoraria	Tokens/ honorarium of speakers			
Total				7,500.00

NARRATIVE REPORT

Seminar on Impacts of Water Pollution on Potable water supply
Basao, Gattaran Cagayan

Extension is one of the core functions of higher education institution that derives its plans and programs for the delivery of community services from community needs assessment and research outputs. The College of Engineering and Architecture extension and community engagement programs are geared toward empowering communities to achieve sustainability through various applications of engineering programs and solutions.

In partnership with the Local Government Unit of Gattaran, the College of Engineering and Architecture conducted a one-day seminar on the impacts of water pollution on potable water supply. This activity is part of the series of seminar-trainings which aims to capacitate the beneficiary community with knowledge on maintaining their water supply.

During the opening program, Engr. Ralph Angelo Estiller, one of the proponents of the extension project, presented the rationale of the training followed by a message delivered by Dr. Joel Binasoy, the new campus extension coordinator. Hon. Gilbert Guillermo also extended his gratitude to the CSU-COEA for launching such project and choosing their barangay to be the beneficiary.

The training proper started right after the opening program where participants was personally presented by Dr. Mary Jane Calagui, a ChE faculty.

Prepared by:

RALPH ANGELO ESTILLER, MCRSDM
Project Proponent

CAGAYAN STATE UNIVERSITY
CARIG CAMPUS
Carig Sur, Tuguegarao City, Cagayan, Philippines

After the lecture, Engr. Chritopher Capili, the college extension coordinator thanked the participants, the resource speakers, and the barangay officials as he deliver the closing remarks. He particularly highlighted the importance of these activities in the community development and the strong and vibrant partnerships we have built with the local communities.

Water Sources

Ilog

Ang ilog ay isang natural na anyong tubig na naglalakbay mula sa kabundukan, burol, o kalupaan patungo sa karagatan o iba pang mga anyong tubig.

Water Sources

Rain Water o Tubig Ulan

- Ang pagkolekta at paggamit ng ulan o rainwater ay isa sa mga paraan upang mapanatili ang suplay ng tubig, lalo na sa mga lugar na may problema sa kakulangan ng tubig.

Water Sources

Ocean Water o Tubig Dagat

- Ang tubig-dagat ay hindi ligtas para sa inumin nang direkta. Ito ay maalat at may mataas na konsentrasyon ng asin, na maaring magdulot ng dehydration at iba't ibang mga problema sa kalusugan kapag ito ay iniinom.
- Pwede lamang maging source ng inuming tubig kapag ito ay nagdaan sa isang proseso na ang tawag ay **DESALINATION**.

Ano ang Water Pollution?

Ang water pollution ay ang pagkakaroon ng mga **nakakalasong sangkap, contaminants, o basura** sa mga yamang tubig tulad ng mga ilog, lawa, karagatan, at mga groundwater.

Epekto ng Water Pollution sa Suplay ng Tubig

Mga pangunahing epekto ng polusyon ng tubig sa suplay ng tubig:

- Kakulangan sa Malinis na Tubig
- Kakulangan sa Tubig para sa Agrikultura
- Pagkakaroon ng mga Panganib sa Kalusugan
- Epekto sa Ekosistema
- Pangmatagalang Epekto

Mga pangunahing epekto ng polusyon ng tubig sa suplay ng tubig

Kakulangan sa Malinis na Tubig

- Ang polusyon ng tubig ay nagreresulta sa kakulangan ng malinis na tubig para sa pampinansyal, pangkomersyal, at pang-industriyal na mga pangangailangan. Ito ay maaaring magdulot ng kakulangan ng malinis na tubig para sa inumin, kagamitan, at iba pang pangunahing pangangailangan.

Mga pangunahing epekto ng polusyon ng tubig sa suplay ng tubig

Kakulangan sa Tubig para sa Agrikultura

- Ang polusyon ng tubig ay maaaring makaapekto sa suplay ng tubig para sa agrikultura. Ang mga kemikal at mga kontaminante sa tubig ay maaaring makasama sa mga pananim at hayop, na nagreresulta sa masamang ani at kalusugan ng hayop.

Mga pangunahing epekto ng polusyon ng tubig sa suplay ng tubig

Pagkakaroon ng mga Panganib sa Kalusugan

- Ang polusyon ng tubig ay nagdudulot ng mga panganib sa kalusugan para sa mga tao. Ang pag-inom o paggamit ng tubig na may mataas na antas ng polusyon ay maaaring magdulot ng mga sakit tulad ng gastroenteritis, cholera, at iba pang mga waterborne diseases.

Mga pangunahing epekto ng polusyon ng tubig sa suplay ng tubig

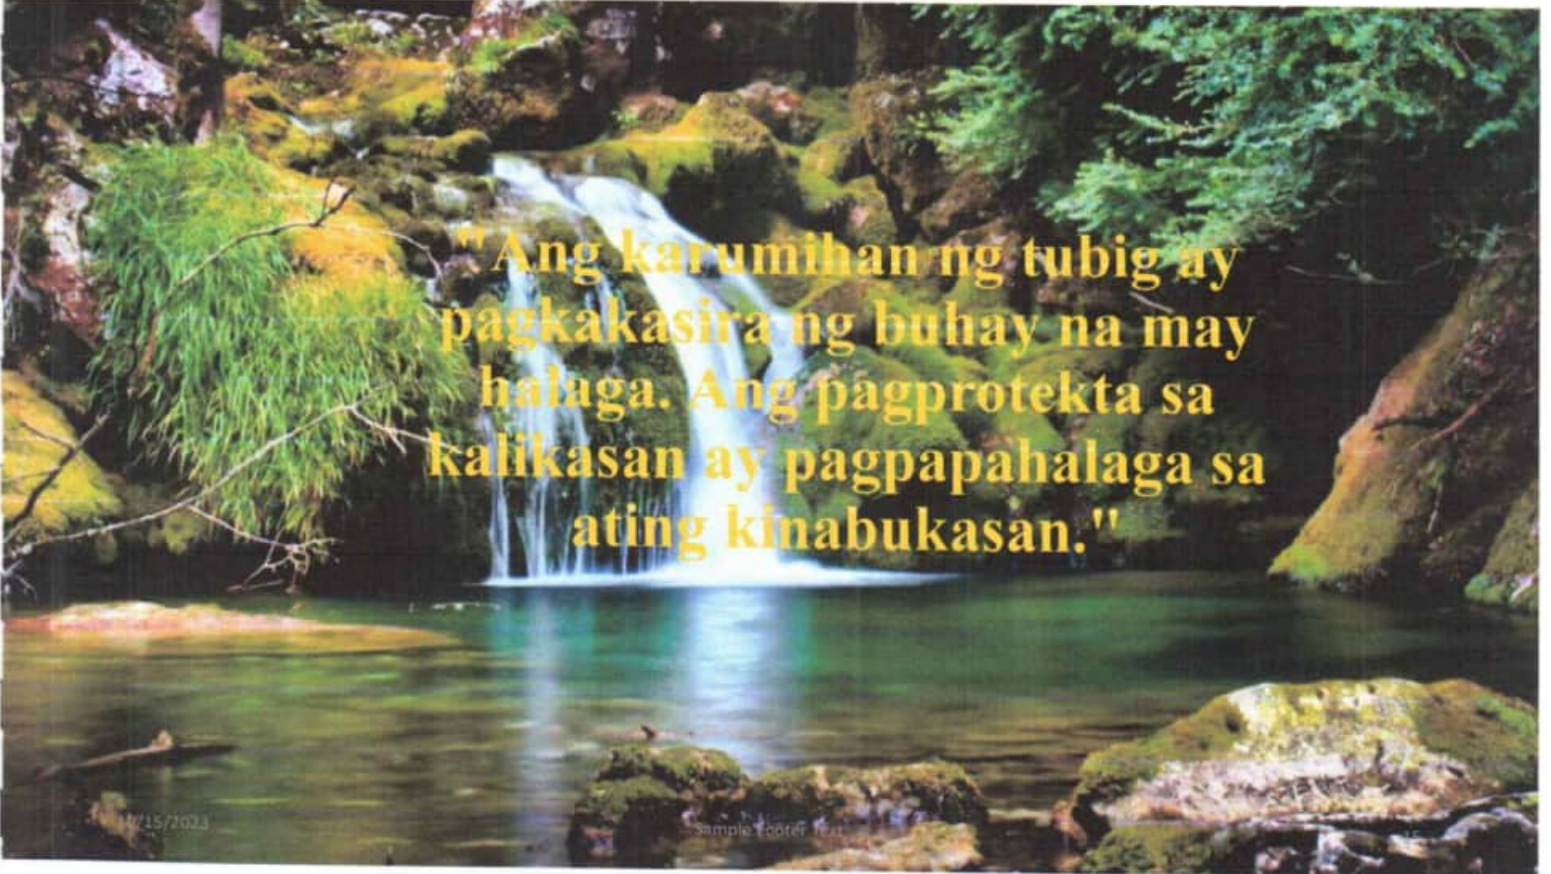

Epekto sa Ekosistema

- Ang polusyon ng tubig ay maaaring magkaruon ng masamang epekto sa mga ekosistema sa ilalim ng tubig. Ito ay nagdudulot ng pagkamatay ng mga isda at iba pang mga organismo, at nagdudulot ng pagkabawas sa biodiversity.

Mga pangunahing epekto ng polusyon ng tubig sa suplay ng tubig

Pangmatagalang Epekto

- Ang polusyon ng tubig ay maaaring magkaruon ng pangmatagalang epekto sa kalidad ng tubig at suplay nito. Ito ay maaaring magresulta sa pangmatagalang kakulangan sa malinis na tubig sa hinaharap.

"Ang karumihan ng tubig ay pagkakasira ng buhay na may halaga. Ang pagprotekta sa kalikasan ay pagpapahalaga sa ating kinabukasan."

TRAINING EVALUATION SUMMARY

Title of Seminar: IMPACTS OF POLLUTION ON WATER SUPPLY

Venue: BARANGAY BASAO GATTARAN CAGAYAN

Date: June 07, 2024

A. COURSE CONTENT	Outstanding	Very Satisfactory	Satisfactory	Good	Poor		
	5.0	4.0	3.0	2.0	1.0	Average	Qualitative Description
1. The training is very relevant to present needs of the community and the country as a whole	23	2	0	0	0	4.92	Outstanding
2. The topics /workshop gave me new insights/ideas about how I should do my work.	22	3	0	0	0	4.88	Outstanding
3. The topic/workshop gave me new skills that will improve my efficiency/productivity.	20	5	2	0	0	4.80	Outstanding
4. The topics/workshop will enhance my dealings with the members of my community.	25	0	0	0	0	5.0	Outstanding
B. TRAINING SCHEDULE							
1. The sessions started and ended according to the set schedule	19	6	0	0	0	4.76	Outstanding
2. The schedule for the training was conducive to learning	22	3	0	0	0	4.88	Outstanding
3. The time allotted for the topic was sufficient to ensure maximum learning	14	11	0	0	0	4.56	Outstanding
4. The time allotted for the breaks was sufficient	21	4	0	0	0	4.84	Outstanding
C. TIMELINESS							
1. The topics discussed gave solutions to my present concerns related to my work/enterprise/project.	24	1	0	0	0	4.96	Outstanding

D. RESOURCE SPEAKERS							
1. The resource persons showed mastery of the subject matter	23	2	0	0	0	4.92	Outstanding
2. The resource persons spoke clearly	21	4	0	0	0	4.84	Outstanding
3. The resource persons presented the topics in an organize manner	22	3	0	0	0	4.88	Outstanding
4. The resource persons exhibited the enthusiasm in delivering their lecture	23	2	0	0	0	4.92	Outstanding
5. The resource persons used various methods to make the presentations interesting and lively	24	1	0	0	0	4.96	Outstanding
6. The resource persons encouraged group participation	24	1	0	0	0	4.96	Outstanding
						4.88	OUTSTANDING

REMARKS:

1. The topic was relevant and timely.
2. The lecturer is very friendly.

TRAINING EVALUATION FORM (Community-Based)

This form is designed to draw out your reaction/perception after attending the training.
Please answer TRUTHFULLY all items by using the scale below:

5 - Outstanding 4 - Very Satisfactory 3 - Satisfactory 2 - Good 1 - Poor

Title of Training/Seminar: Seminar on Impacts of Pollution on Water Supply Date: June 07, 2024

A. Course Content

- 1. The training is very relevant to present needs of the community and the country as a whole. 1 2 3 4 5
- 2. The topics/workshop gave me new insights/ideas about how I should do my work. 1 2 3 4 5
- 3. The topics/workshop gave me new skills that will improve my efficiency/productivity. 1 2 3 4 5
- 4. The topics/workshop will enhance my dealings with the members of my community. 1 2 3 4 5

B. Training Schedule

- 1. The sessions started and ended according to the set schedule. 1 2 3 4 5
- 2. The schedule for the training was conducive to learning. 1 2 3 4 5
- 3. The time allotted for the topic was sufficient to ensure maximum learning. 1 2 3 4 5
- 4. The time allotted for breaks was sufficient. 1 2 3 4 5

C. Timeliness

- 1. The topics discussed gave solutions to my present concerns related to my work/enterprise/project. 1 2 3 4 5

D. Resource Speakers

E. Resource Persons/ Speakers	DR. CALAGUI				
	1	2	3	4	5
1. The resource persons showed mastery of the subject matter.					✓
2. The resource persons spoke clearly.					✓
3. The resource persons presented the topics in an organized manner.					✓
4. The resource persons exhibited the enthusiasm in delivering their lecture.					✓
5. The resource persons used various methods to make the presentations interesting and lively.					✓
6. The resource persons encouraged group participation.					✓
