I. BASIC INFORMATION

Program: Resource Support Development under Paggurufunan para ta Progreso

Title of Training/Seminar: Skills Training Workshop on Hydroponics Gardening

Theme: “

Training Provider/Proponent

Agricultural and Biosystems Engineering Department
College of Engineering and Architecture

Target Participants:

The participants of this seminar are the members of the Agta Community and Barangay officials, and members of the Sangguniang Kabataan of Barangay Basao, Gattaran, Cagayan.

Number of Participants

<i>No. of Participants</i>	<i>Participants</i>
40	Members of Agta Community
5	Barangay Officials
5	Members of Sangguniang Kabataan of Basao

Venue: Agta Community Ground

Committees:

<i>Committee</i>	<i>Person-In-Charge</i>
Programme Invitation Certificates Tokens	Engr. Ralph Angelo Estiller Engr. Oliver Doctolero Engr. Kevin Deniega
Registration and Evaluation Committee	Engr. Caesar Llapitan Engr. Roldan Ace Tabangay Engr. James Cabildo
Emcee	Engr. Ralph Angelo Estiller
Documentation	Engr. Kevin Deniega Engr. Gilbert Calubaquiub CSU-ABE OJT Students
Overall In-charge	Engr. Oliver Doctolero Engr. Christopher Capili Engr. Ralph Angelo Estiller

II. RATIONALE

The Agta Community in Basao greatly relies on utilizing traditional agricultural practices to sustain their communities. However, with the emergence of climate change, land degradation, water scarcity, and the limitation of arable land, these practices face significant challenges. Considering this, the introduction of modern, sustainable farming techniques like hydroponics offers an innovative solution that respects and integrates with their cultural values, ensuring food security and economic stability.

Efficient resource utilization is a critical aspect of hydroponics. It consumes significantly less water, less chemical fertilizer and little to no pesticides compared to traditional farming methods. These makes it particularly relevant in the Agta community which has low irrigation capacity due to its steep topography and reduces the environmental impact associated with traditional agriculture. By maximizing resource efficiency, hydroponics aligns seamlessly with the sustainable practices that many indigenous communities hold dear.

Moreover, hydroponics leads to higher crop yields in smaller spaces, allowing for more efficient land use. This increased productivity can create surplus produce for sale, generating new economic opportunities within the community. Additionally, the knowledge gained from hydroponics can foster the development of local businesses centered around sustainable agriculture. This economic development directly contributes to the overall well-being and prosperity of the community.

A seminar on hydroponics will not only introduce a new skill set but also empower community members to adapt and innovate in response to changing environmental conditions. This knowledge transfer empowers individuals to take control of their food production, leading to greater food security and self-sufficiency.

In conclusion, by introducing hydroponics to the indigenous tribe, we aim to create a platform for sustainable agricultural practices that not only adapt to changing environmental conditions but also

Republic of the Philippines
CAGAYAN STATE UNIVERSITY
CARIG CAMPUS
Carig Sur, Tuguegarao City, Cagayan, Philippines

honor and preserve the cultural heritage of the community. This seminar will empower individuals to take control of their food production, leading to greater resilience, self-sufficiency, and economic prosperity. It represents a significant step towards a more sustainable and prosperous future for the indigenous community.

Objectives:

This training workshop aims to capacitate the members of the Agta community in hydroponic farming.

Specifically, it aims to:

- a. Discuss the sustainability of hydroponic farming and its marketability potential of its produce.
- b. Discuss the benefits of hydroponic farming to the community.
- c. Discuss the materials needed in hydroponic farming.
- d. Discuss the operation and maintenance of a hydroponic system.
- e. Demonstrate how the hydroponic system works through a technology demonstration.

III. MECHANICS/METHODOLOGY

To facilitate conceptual understanding and application of learning and to gauge how much the participants have learned/understood with the use of combined methodologies:

1. Lecture Presentations and Interactive Discussions
2. Conduct of hand-on activities/ workshop.
3. Conduct of a Technology Demonstration.

IV. EXPECTED OUTPUT

At the end of this activity, the participants must be able to:

1. Knowledgeably define basic terminologies in hydroponic farming.
2. Know the difference between traditional farming and hydroponic farming
3. Demonstrate basic hydroponic system operation and maintenance

4. Enumerate the materials needed to setup hydroponic system.

V. EXPECTED OUTCOMES/ IMPACT

After undergoing this series of seminar workshop, the participants may be able to:

1. Have an additional source of income by selling their produce.
2. Have an alternative means of farming/gardening.
3. Grow their own vegetables in a limited space.

VI. TRAINING TOPICS AND RESOURCE PERSONS

Topic	Resource Person	Contents	Time allotment	Training Requirements from participants
SEMINAR-WORKSHOP ON BASIC HYDROPONIC FARMING	Roldan Ace Tabangay <i>Faculty, ABE Department, College of Engineering and Architecture</i>	- Hydroponic farming systems - Seed and growing media preparation - Crop care - Maintenance of the system	8:00 -12 :00	Attendance Morning Evaluation
TECHNOLOGY DEMONSTRATION OF BASIC HYDROPONIC SYSTEM	Roldan Ace Tabangay <i>Faculty, ABE Department, College of Engineering and Architecture</i>	- Hydroponic farming systems - Seed and growing media preparation - Crop care - Maintenance of the system	1:00-5:00	Presentation of outputs, Attendance Afternoon Evaluation

OFFICE OF THE CAMPUS EXECUTIVE OFFICER

VISION

CSU is a University with global stature in the arts, culture, agriculture and fisheries, the sciences as well as technological and professional fields.

MISSION

Cagayan State University shall produce globally competent graduates through excellent instruction, innovative and creative research, responsive public service and productive industry and community engagement.

CORE VALUES

Competence

- Critical Thinker
- Creative Problem-Solver
- Competitive reformer
- Nationally, Regionally and Globally.

Social Responsibility

- Sensitive to Ethical Demands
- Steward of the Environment for Future Generations
- Social Justice and Economic Equity Advocate.

Unifying Presence

- Uniting Theory and Practice
- Uniting Strata of Society
- Unifying the Nation, the ASEAN Region and the world
- Uniting the University and the community.

With the involvement of few selected students, it is imperative that all procedures, processes, and requirements pursuant to *CHED Memorandum Order No. 63, series of 2017*, re: conduct of off-campus activity/ies, be duly complied.

The concerned college is directed to submit a comprehensive report detailing the activities undertaken and its outputs achieved.

An authority to receive financial assistance amounting to **Twenty-Eight Thousand Five Hundred Seventy pesos (P28, 570.00)** is likewise afforded for the purpose of the same, charged against Campus Funds, subject however, to accounting and auditing rules and regulations.

Issued in the best interest of the service. All orders and other issuances contrary hereto are hereby rescinded or modified accordingly.

Campus Director for RDE

Sir:

Extension is one of the core functions of higher education institution that derives its plans and programs for the delivery of community services from community needs assessment and research outputs. The College of Engineering and Architecture extension and community engagement programs are geared toward empowering communities to achieve sustainability through various applications of engineering programs and solutions.

In this light, the College of Engineering and Architecture will be conducting Training-Workshop and Technology Demonstration on **Hydroponics Gardening**, on **July 31, 2024** at **Sitio Padungsol, Barangay Basao, Gaitaran, Cagayan**. In addition, **Signing of the Memorandum of Agreement (MOA)** will also be conducted.

The aforementioned activities are part of the COEA extension project entitled **Resource Support Development** under the **Paguruffunan para ta Progreso**.

Anent this, may we request for the issuance of an Office Order for the following faculty extensionists. Also, we would like to seek for your approval to allow us to include eleven (11) students of the ABE Department and two (2) students of the GE Department who are currently having their internship program in the college to assist in the construction of the greenhouse and to comply with the requirement of accreditation which is to involve students in various extension and community services.

Attached are the list of activities including the faculty extensionists and student-interns who will be participating on the said event and the parent's consent forms (waiver) of the students.

Thank you and we expect to receive your positive response with regard to this matter.

Respectfully yours,

RALPH ANGELO ESTILLER, MCRSDM

NARRATIVE REPORT

Training and Technology Demonstration on Hydroponic Farming
Basao, Gattaran Cagayan

Training on Hydroponic Farming is increasingly recognized as a vital component in the modern agricultural landscape, offering innovative solutions to meet the growing global demand for food. As traditional farming methods face challenges such as limited arable land, water scarcity, and environmental concerns, hydroponics emerges as a sustainable alternative that maximizes resource efficiency. Hydroponic systems, which cultivate plants without soil using nutrient-rich water, present numerous advantages, including accelerated growth rates, reduced water usage, and the ability to grow crops in controlled environments.

Also it is crucial for equipping individuals with the knowledge and skills needed to harness these benefits effectively. It provides farmers, horticulturists, and entrepreneurs with the expertise to design, implement, and manage hydroponic systems, ensuring optimal plant health and productivity. Furthermore, as the technology and techniques evolve, ongoing education is essential to stay abreast of the latest advancements and best practices. By investing in hydroponic training, individuals and communities can contribute to sustainable agricultural practices, enhance food security, and drive innovation in the field of modern farming.

Extension activities being one of the core functions of higher education institution that derives its plans and programs for the delivery of community services from community needs assessment and research outputs. The College of Engineering and Architecture extension and community engagement programs are geared toward empowering communities to achieve sustainability through various applications of engineering programs and solutions.

Republic of the Philippines
CAGAYAN STATE UNIVERSITY
CARIG CAMPUS
Carig Sur, Tuguegarao City, Cagayan, Philippines

In partnership with the Local Government Unit of Gattaran, the College of Engineering and Architecture conducted a one-day training and technology demonstration on hydroponic farming. This activity is part of the series of seminar-trainings which aims to capacitate the beneficiary community with knowledge on the extended technology.

During the opening program, Engr. Ralph Angelo Estiller, one of the proponents of the extension project, presented the rationale of the training. Hon. Gilbert Guillermo also extended his gratitude to the CSU-COEA for launching such project and choosing their barangay to be the beneficiary for this very timely activity.

The training proper started right after the opening program where participants engaged in a very dynamic exchange of ideas with the resource speaker, Engr. Roldan Ace Tabangay as he discussed his topic "Fundamental Concepts on Hydroponic Farming". After the training, the participants also have tried planting seedlings on the hydroponic farming technology through the technology demonstration facilitated by Engr. Kevin Deniega.

After the lecture, Engr. Christopher Capili, the college extension coordinator thanked the participants, the resource speakers, and the barangay officials as he deliver the closing remarks. He particularly highlighted the importance of these activities in the community development and the strong and vibrant partnerships we have built with the local communities.

- **Haan nga kasapulan ti nalawa nga espasio**
- **Naalistu ti panagdakkel ti mula**
- **Haan nga kasapulan ti aglamun/agiruut**
- **Haan nga kasapulan ti daga**
- **Nalaklaka ti panagabono**
- **Napintas ti kalidad ti apit**

DAGITI PAGDAKSAN TI HYDROPONICS

- Nangina ti inisyal nga magastu iti panagpatakder.
- Masapul ti expertise ti operasyon.
- Nalaka nga maakaran ti sakit nga aggapu ti danum.
- Agakasapulan iti kuryente.
- Masapul iti maintenance ken monitoring

Hydroponics: A Guide to Growing Plants Without Soil

OPERASYON TI HYDROPONICS

- Panagpatakder ti greenhouse.
- Panangiplastar dagiti materyales nga pangHydroponics.

OPERASYON TI HYDROPONICS

- Panagbunubun ti mula.
- Panagsagana iti growing media.

OPERASYON TI HYDROPONICS

- Panagtempla iti nutrient solution.
- Panagiyakar ti bunubun sadjay net pot nga addaan growing media na.

OPERASYON TI HYDROPONICS

- Panangtaripatu ti panagdakkel ti m
ula.

KONGKLUSYON

- Ti panagpatanur ti mula babaen ti hydroponics ket dakkel a pagnam-ayan para kadagiti mannalon. Mapaalistuda iti apit ken mapapintas ti kalidad iti produkto. Mabalin pay nga makamula uray sadinuman ta nalaka nga iyakar sapay han a masapulen ti daga. Ngarud nu nasayaat iti pannakaaramid ken pannakataripatu kadaytuy nga siste a ket kabaelanna nga mangted nam-ay ti byag dagiti mannalon.

Summary of Training Evaluation

CAGAYAN STATE UNIVERSITY
COLLEGE OF ENGINEERING & ARCHITECTURE
College Research and Extension Office

TRAINING EVALUATION SUMMARY

Title of Seminar: **TRAINING & TECHNO-DEMO ON HYDROPONIC FARMING**

Venue: **BARANGAY BASAO GATTARAN CAGAYAN**

Date: **July 31, 2024**

A. COURSE CONTENT	Outstanding	Very Satisfactory	Satisfactory	Good	Poor		
	5.0	4.0	3.0	2.0	1.0	Average	Qualitative Description
1. The training is very relevant to present needs of the community and the country as a whole	31	9	0	0	0	4.78	Outstanding
2. The topics /workshop gave me new insights/ideas about how I should do my work.	33	7	0	0	0	4.83	Outstanding
3. The topic/workshop gave me new skills that will improve my efficiency/productivity.	34	6	0	0	0	4.85	Outstanding
4. The topics/workshop will enhance my dealings with the members of my community.	34	6	0	0	0	4.85	Outstanding
B. TRAINING SCHEDULE							
1. The sessions started and ended according to the set schedule	37	3	0	0	0	4.93	Outstanding
2. The schedule for the training was conducive to learning	32	8	0	0	0	4.80	Outstanding
3. The time allotted for the topic was sufficient to ensure maximum learning	33	7	0	0	0	4.83	Outstanding
4. The time allotted for the breaks was sufficient	38	2	0	0	0	4.95	Outstanding
C. TIMELINESS							
1. The topics discussed gave solutions to my present concerns related to my work/enterprise/project.	32	8	0	0	0	4.80	Outstanding

D. RESOURCE SPEAKERS	33	7	0	0	0	4.83	
1. The resource persons showed mastery of the subject matter	36	4	0	0	0	4.90	Outstanding
2. The resource persons spoke clearly	35	5	0	0	0	4.88	Outstanding
3. The resource persons presented the topics in an organize manner	36	4	0	0	0	4.90	Outstanding
4. The resource persons exhibited the enthusiasm in delivering their lecture	35	5	0	0	0	4.88	Outstanding
5. The resource persons used various methods to make the presentations interesting and lively	32	8	0	0	0	4.80	Outstanding
6. The resource persons encouraged group participation	33	7	0	0	0	4.83	Outstanding
						4.87	OUTSTANDING

REMARKS:

1. The topic was relevant and timely.
2. The lecturer is very friendly.
3. We enjoy doing the hands-on activity

Prepared by:

ENGR. RALPH ANGELO ESTILLER

Training Evaluation Forms*

TRAINING EVALUATION FORM (Community-Based)

This form is designed to draw out your reaction/perception after attending the training.
Please answer TRUTHFULLY all items by using the scale below:

5 - Outstanding 4 - Very Satisfactory 3 - Satisfactory 2 - Good 1 - Poor

Title of Training/Seminar: Training and Technology Demonstration on
Hydroponic System Date: July 31, 2024

A. Course Content

1. The training is very relevant to present needs of the community and the country as a whole. 1 2 3 4 5
2. The topics/workshop gave me new insights/ideas about how I should do my work. 1 2 3 4 5
3. The topics/workshop gave me new skills that will improve my efficiency/productivity. 1 2 3 4 5
4. The topics/workshop will enhance my dealings with the members of my community. 1 2 3 4 5

B. Training Schedule

1. The sessions started and ended according to the set schedule. 1 2 3 4 5
2. The schedule for the training was conducive to learning. 1 2 3 4 5
3. The time allotted for the topic was sufficient to ensure maximum learning. 1 2 3 4 5
4. The time allotted for breaks was sufficient. 1 2 3 4 5

C. Timeliness

1. The topics discussed gave solutions to my present concerns related to my work/enterprise/project. 1 2 3 4 5

D. Resource Speakers

E. Resource Persons/ Speakers	ENGR. TABANGAY					ENGR. DENIEGA									
	1	2	3	4	5	1	2	3	4	5	1	2	3	4	5
1. The resource persons showed mastery of the subject matter.					/					/					
2. The resource persons spoke clearly.					/					/					
3. The resource persons presented the topics in an organized manner.				/						/					
4. The resource persons exhibited the enthusiasm in delivering their lecture.					/				/						
5. The resource persons used various methods to make the presentations interesting and lively.					/					/					
6. The resource persons encouraged group participation.					/					/
